Buyers are advised to research Federal, State, and local governmental agencies' websites to become familiar with future anticipated development, global changes, climate changes, tax assessments, and other similar things that may affect the property in the future.

Square Footage: There are different methods of measuring used for different purposes. Acreage of the land and square footage of the buildings quoted on the real estate tax information, marketing materials, advertisements, brochures, MLS data, or appraisal, is only approximate, is not guaranteed, and should not be relied upon.

Tax System Data: Property data, square footage, characteristics, and building permit information in government real estate tax systems may not be accurate and should not be relied upon by sellers and buyers. It can be very difficult to research building permit information.

*Additional information for specific sections is listed below:*

- *Flood Zone:* Public and/or private flood insurance options exist for most properties even if property is not in a high-risk flood zone. Inquire about options with a qualified insurance agent. More information may be found at the Delaware Department of Insurance.
